

Employee Portal Guidebook

This guide is for employees using the Addbell employee portal for attendance and self-service tasks.

This guide covers:

- logging into the employee portal
- using the `Bundy Clock` for time in and time out
- filing `Leave Request`
- filing `Failure to Log`
- filing `OT Filing`
- viewing `My Information`
- changing your portal password
- viewing `Payslips`
- checking `Project Assignments`

This guide does **not** cover:

- `Fund Request`
- `Purchase Order`

Screens may vary slightly depending on your assigned access, available data, and HR setup, but the overall flow stays the same.

Before you start

Prepare these first:

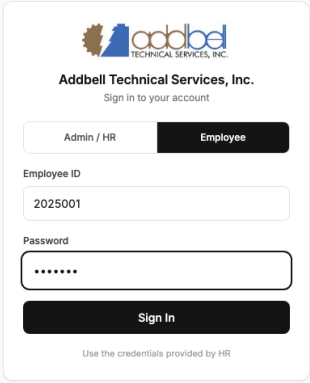

- your `Employee ID`
- your current employee portal password
- location services enabled on your phone or computer if you will use `Bundy Clock`
- any supporting document needed for leave or overtime, if HR requires one

Important reminders:

- if you forgot your password, ask HR to reset it for you
 - if you know your current password, you can change it yourself in `My Information`
 - `Bundy Clock` depends on your GPS/location and approved work site assignment
-

1. Sign in to the employee portal

1. Open the login page.
2. Switch to **Employee**.
3. Enter your **Employee ID**.
4. Enter your password.
5. Click **Sign In**.

The screenshot shows the Addbell Technical Services, Inc. login interface. At the top is the company logo and name. Below it, there are two tabs: 'Admin / HR' and 'Employee', with 'Employee' being the active tab. The form includes fields for 'Employee ID' (containing '2025001') and 'Password' (masked with dots). A 'Sign In' button is at the bottom of the form. Below the button, there is a small note: 'Use the credentials provided by HR'. At the very bottom, there is a copyright notice: '© 2025 Addbell Technical Services, Inc. Privacy Notice'.

Employee login screen

After login, you will enter the employee workspace and can open attendance, requests, payslips, and profile tools from the left sidebar.

2. Understand the employee portal menu

The employee portal sidebar is organized into these sections:

- **Time & Attendance**
- **Requests**
- **Information**

Main employee functions available today:

- [Bundy Clock](#)
- [Leave Request](#)
- [OT Filing](#)
- [Failure to Log](#)
- [Project Assignments](#)
- [My Information](#)
- [Payslips](#)

If a page is empty, that usually means:

- you do not have any records yet
- HR has not created data for that section yet
- your current work location or project assignment has not been set up yet

3. Use Bundy Clock for time in and time out

Open [Bundy Clock](#) from the sidebar to record attendance.

What you will see on this page:

- the current time and date
- the current weekly cutoff period
- your allotted and available SIL credits
- [Time In](#) and [Time Out](#) buttons
- your location status
- your [Today's Time In / Out](#) summary
- your weekly [Time Attendance](#) table and calendar

19	20	21	22	23	24	25
26	27	28	29	30	1	2

Bundy Clock page

How to time in or time out

1. Open **Bundy Clock**.
2. Check the location status message.
3. If your location is accepted, click **Time In** at the start of work.
4. Click **Time Out** when your shift ends.

If the page says location is not allowed

That means the portal sees that you are:

- outside the allowed work site radius, or
- not yet assigned to a valid clock location, or
- using a device with location services disabled

What to do:

- enable GPS or location access on your device
- move into the approved work site area
- ask HR if your clock location assignment needs to be updated

Bundy Clock tips

- do not time in and out repeatedly unless HR told you to do so

- review **Today's Time In / Out** right after punching
- use **Failure to Log** if a punch was missed or incorrect

4. File a leave request

Open **Leave Request** from the sidebar when you need to request leave.

This page shows:

- leave counters and credits
- the leave filing form
- date selection calendar
- your leave history and statuses

The screenshot shows the 'Leave request' page for Jericko A. Razal (ID 2025001). The page is divided into a sidebar and a main content area. The sidebar contains navigation links: Time & Attendance, Bundy Clock, Requests (with a sub-link for Leave Request), OT Filing, Failure to Log, Fund Request, Information, Project Assignments, My Information, and Payslips. The main content area has a header with the user's name and ID, and a 'Logout' button. Below the header, the 'Leave request' section displays four counters: Pending (0), Approved (0), Allotted SIL Credits (5, Available: 0.00), and Available SIL Credits (0.00). It also shows Maternity Days (0.00) and Paternity Days (0.00). The 'File Leave Request' section allows selecting a leave type (SIL, LWOP, Maternity Leave, or Paternity Leave) and a date range. A calendar for April 2026 is shown with dates 13 and 14 selected. The footer includes the copyright notice '© 2026 Adbell Technical Services, Inc.' and a 'Privacy Notice' link.

Leave Request page

Leave types available

- **SIL**
- **LWOP**

How to file leave

1. Open **Leave Request**.

2. Choose the leave type.
3. Select one or more dates on the calendar.
4. Enter your reason.
5. Attach a supporting document if needed.
6. Click `Submit Leave Request`.

Leave request rules to know

- weekends and holidays are not counted the same way as regular workdays
- `LWOP` can show half-day options after you select dates
- supporting files must be `PDF`, `DOC`, or `DOCX`
- the file size limit is `5MB`

Leave request statuses

- `pending`: waiting for approval
- `approved_by_manager`: manager approved, waiting for HR
- `approved_by_hr`: fully approved
- `rejected`: denied
- `cancelled`: cancelled by the employee before final processing

When to use leave vs failure to log

Use `Leave Request` when:

- you will be absent for approved leave
- you are formally requesting SIL or LWOP

Do not use `Leave Request` for a missed time in or time out. Use `Failure to Log` for that instead.

5. File a failure to log request

Open `Failure to Log` when you forgot to record a punch or your time entry needs correction.

This page shows:

- request counters
- the correction request form
- your request history

05:00 PM

Reason *
Sample correction request for missed clock in and clock out.

Please provide a detailed explanation to help HR process your request faster

Submit Request

My Failure to Log Requests

Failure to Log page

When to use Failure to Log

Use this page if:

- you forgot to **Time In**
- you forgot to **Time Out**
- both time in and time out were missed

How to file a failure to log request

1. Open **Failure to Log**.

2. Choose the **Log Type**:

- **Time In**
- **Time Out**
- **Time In & Out**

1. Enter the correct date.

2. Enter the missing time or times.

3. Enter a clear reason.

4. Click **Submit Request**.

Best practice for the reason field

Write a short but specific explanation, such as:

- forgot to punch after arriving on site
- phone battery died before clocking out
- location service failed during clock out

Failure to Log statuses

- `pending` : under review
 - `approved` : correction accepted
 - `rejected` : correction denied
 - `cancelled` : request cancelled by the employee
-

6. File overtime

Open `OT Filing` when you need approval for overtime work.

This page shows:

- the overtime filing form
- auto-calculated total hours
- your overtime request history

Employee portal

OT filing

Submit overtime hours, attach supporting documents, and track request status.

OT Filing
File overtime request for approval.

OT Date: 04/14/2026 Start Time: 06:00 PM

End Time: 09:00 PM Total Hours (auto): 3.00

End Date: mm/dd/yyyy

Optional: Only needed if overtime spans multiple days beyond the next day.

Calculated Hours: 3.00

Reason: Sample overtime request for employee guide documentation.

Supporting Document (optional, PDF/DOC/DOCX)
Choose File No file chosen

Optional: attach supporting document for overtime. Max 5MB.

[Submit OT Request](#)

My OT Requests

© 2026 Addbell Technical Services, Inc. [Privacy Notice](#)

OT Filing page

How to file overtime

1. Open **OT Filing**.
2. Enter the **OT Date**.
3. Enter the **Start Time**.
4. Enter the **End Time**.
5. If the overtime spans beyond the next day or across more than one date, fill **End Date**.
6. Review the **Total Hours (auto)** field.
7. Enter the reason for overtime.
8. Attach a supporting document if needed.
9. Click **Submit OT Request**.

Overtime rules to know

- total hours are calculated automatically from your start and end time
- overnight OT can roll into the next day
- supporting files must be **PDF**, **DOC**, or **DOCX**
- the file size limit is **5MB**

Overtime request statuses

- **pending**: waiting for approval

- **approved** : accepted
- **rejected** : denied

7. Review your employee information

Open **My Information** to review the profile details HR has on file for you.

This page can include:

- employee ID
- full name
- address
- birth date
- government numbers
- status
- assigned locations
- profile picture upload
- password change form

Employee portal
Time, requests, payslips, and your work information.

Date Added	April 13, 2026		

Change password

Update your portal password

Current Password

Enter your current password

New Password

Enter your new password

Must be at least 4 characters long

Confirm New Password

My Information page

What employees can do here

- review HR profile details
- upload or replace a profile picture
- change their own portal password

How to change your password

1. Open **My Information**.
2. Open the **Change password** section.
3. Enter your current password.
4. Enter your new password.
5. Confirm the new password.
6. Click **Update Password**.

Password rules on this page:

- the new password must be at least **4 characters**
- the new password must match the confirmation field
- the new password must be different from the current password

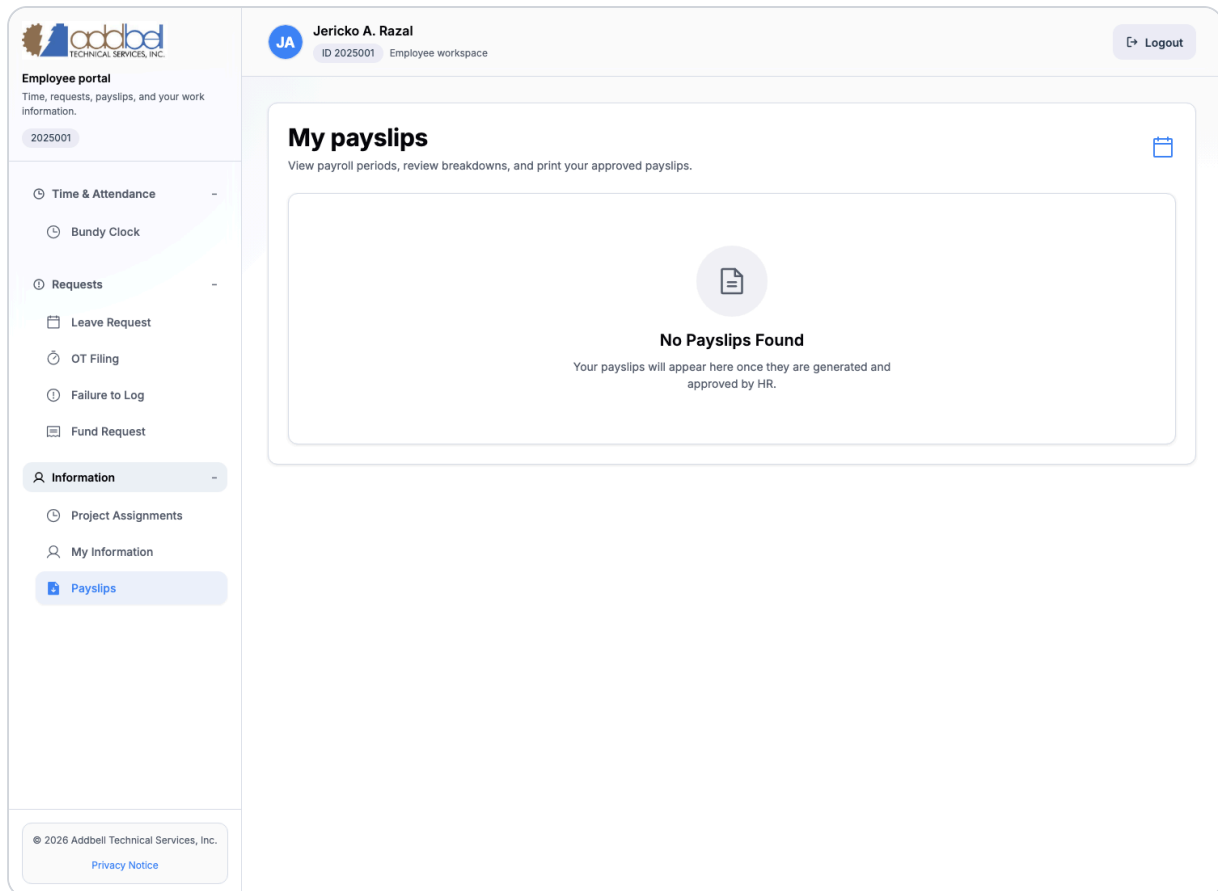

If you forgot your current password, contact HR. Employees cannot self-change the password without knowing the current one.

8. View payslips

Open **Payslips** from the sidebar to view available payroll records.

This page is where employees will:

- review released payslips
- open a payslip
- review breakdowns
- download or print payslips when available

Payslips page

If you see `No Payslips Found` , it usually means:

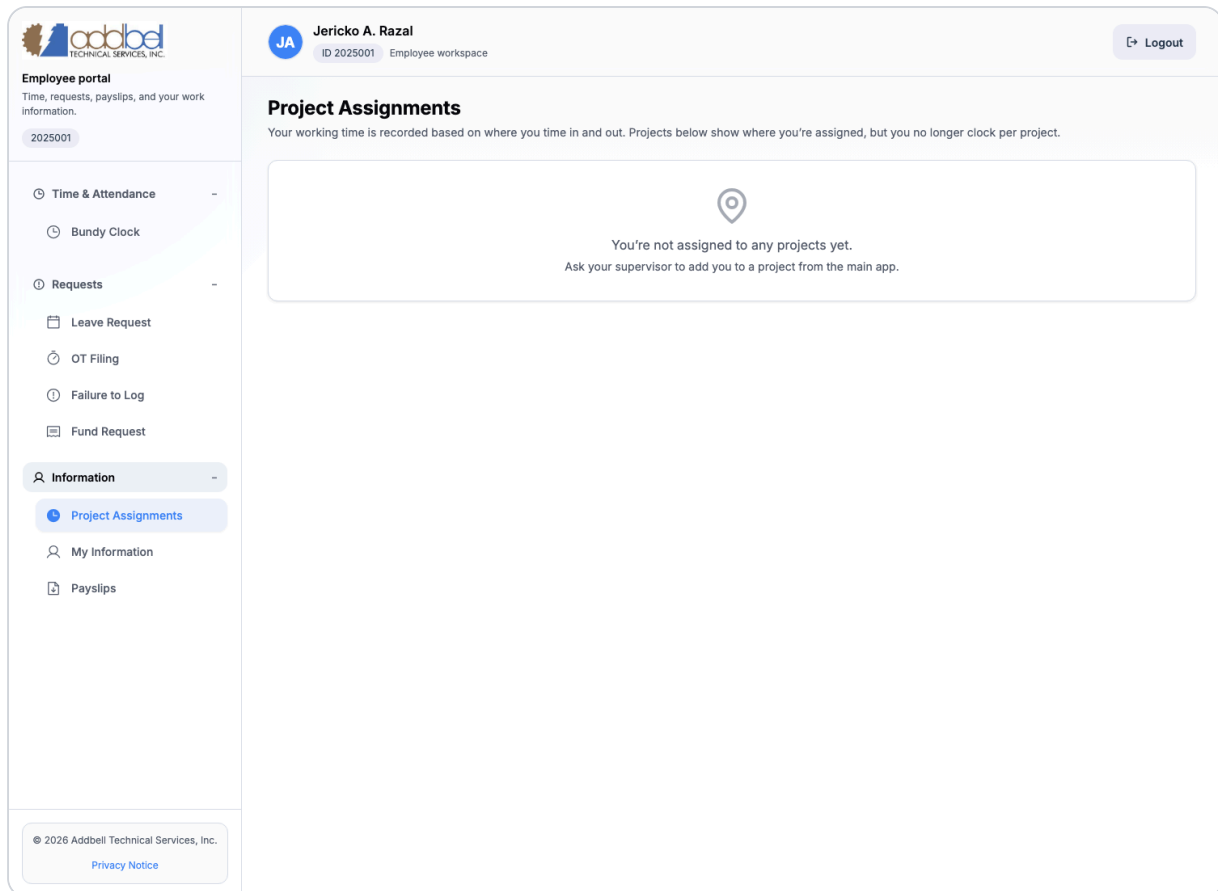

- HR has not yet generated your payslip
- your payslip is not yet approved or released
- there is no payroll record yet for the selected period

If a payslip is available, use the view or download actions shown on the page.

9. Check project assignments

Open `Project Assignments` to see where you are currently assigned.

This page is informational. It helps you confirm project placement, but employees do **not** clock in and out per project anymore.

Project Assignments page

Important note:

- attendance is based on your approved work location and **Bundy Clock**
- project assignment visibility does not replace time in and time out

If no project appears, ask your supervisor or HR to verify your assignment in the main system.

10. Common status meanings

Area	Status	Meaning
Leave	pending	Waiting for review
Leave	approved_by_manager	Manager approved, still waiting for HR
Leave	approved_by_hr	Fully approved
Leave / OT / Failure to Log	rejected	Request was denied
Leave / Failure to Log	cancelled	Request was cancelled
OT	approved	Overtime request accepted
Payslip	draft	Not yet finalized for release
Payslip	approved	Prepared and approved
Payslip	paid	Completed payroll record

11. Troubleshooting

I cannot log in

- confirm you are using **Employee** mode, not **Admin / HR**
- recheck your **Employee ID**
- recheck your password
- if you forgot the password, ask HR to reset it

I cannot time in or time out

- enable location services
- move inside the approved work site radius
- refresh the page
- ask HR to verify your assigned clock location

My leave or overtime request is not moving

- check the status on the page
- if it is still **pending**, follow up with your supervisor or HR
- if it is **rejected**, review the reason and refile if needed

My information is incomplete

- some fields depend on HR records
- ask HR to update your employee profile in the main system

My payslip is missing

- wait for HR to generate and release payroll
- ask HR if the payroll period has already been processed

12. Best practices for employees

- always use **Bundy Clock** when arriving and leaving
- file **Failure to Log** as soon as you notice a missed punch
- use **Leave Request** only for actual leave filing
- use **OT Filing** only for overtime that needs approval
- keep your password private
- review your **My Information** page regularly so HR can correct missing details early
